# A Reading for Donnie

### The Total Solar Eclipse in Leo

**12 August 2026 · 12:36 PM Central · USA Archery Nationals · Springfield, Missouri**

## The Main Event: Eclipse on Your Sun

On Wednesday, August 12, at 12:36 PM Central—during your practice day—a Total Solar Eclipse occurs at 20° Leo, sitting *exact to the degree* opposite your natal Sun at 20° Aquarius.

This eclipse activates your chart's core axis: **Home & Foundation (4th House)** versus **Career & Public Standing (10th House)**. Landing precisely as you step onto a national stage, it accelerates timelines, exposes hidden dynamics, and forces rapid shifts.

Even though the total eclipse isn't visible from the venue, its astrological impact is fully active in your chart and circumstances. It is resetting your foundation—clearing out old patterns so your public standing can expand.

**The Underlying Blessing:** Jupiter makes a supportive contact during the eclipse, signaling that quiet, private effort is ready to translate into public skill.

## Your Annual Theme: The 7th House & Mars

At 54, you are in a **7th-house profection year**, placing focus on 1-on-1 relationships, contracts, and direct opponents. For an archer at Nationals, your competitors across the field are classic 7th-house figures.

Your year is ruled by **Mars**, which in your chart operates through quiet, solitary preparation. You fight in private and bring refined skill to the line. Because Mars rules your year, every transit it makes this week carries heightened impact:

- **Tue Aug 11 (Evening):** Venus offers supportive contacts—smooth travel and grounding.
- **Wed Aug 12 (11:54 AM):** Mercury–Neptune flow promotes effortless skill execution 43 minutes before the eclipse.
- **Wed Aug 12 (12:36 PM): Total Solar Eclipse exact opposite your Sun.** A fundamental reset of center.
- **Wed Aug 12 (All Day):** Mars opposite natal Jupiter creates a sustained competitive drive.

- **Thu Aug 13 (5:12 PM):** Mars square natal Pluto tests your composure and focus under pressure.
- **Fri Aug 14 (6:25 PM):** Sun contacts your body/partner axis—manage fatigue and stay grounded in your body.
- **Sat Aug 15 (10:15 AM):** Mercury–Chiron trine brings past training into present execution during elimination rounds.

## The Week at a Glance

You are competing at Nationals during an exact solar eclipse to your Sun, in a year focused on your opponents, driven by a Mars that favors deep private practice. The week has a natural cadence:

- **Tuesday** settles you.
- **Wednesday** resets your center.
- **Thursday** tests your composure.
- **Friday** requires physical maintenance.
- **Saturday** rewards your past preparation.

Honor each day's unique demand rather than forcing a uniform pace, and you will shoot the meet you prepared for.

## What This Reading Is (and Isn't)

This reading does not predict your final standing or medal outcome. Astrology outlines the season, timing, and energetic conditions—not guaranteed results.

Use this insight to know when to push, when to guard your energy, and when to trust your training. When you feel a shift on Wednesday, recognize it as the eclipse resetting your center.

An eclipse exact on your Sun is a major decade-level transit. Trust the reset—it is working for you, not against you. Stand grounded, hold your focus, and shoot your match.
